Exhibition Hall

The exhibition Hall features more than 130 leading companion animal veterinary companies from all over the world showcasing modern, innovative and sophisticated products and services.

- Free entry for veterinary clinic staff
- Play the Expo challenge with your app
- International exhibitors
- Leading brands
- Special offers
- Coffee and pastries served at the exhibition stands
- Free Wi-Fi

Lecture Proceedings

View and download all the conference proceedings for this year at:
http://sevc2019.com

Wi-Fi

Free Wi-Fi is available to all the SEVC delegates.

Wi-Fi Network: AVEPA-SEVC19
Password: avepasevc19

Social Events

Poster Presentation

Friday, 8 November: 7pm-8pm
FIBES, Level 0, Poster Area
Free access for people registered to the congress.

Lunch

During coffee breaks you will have beverages available at the coffee points, as well as pastries in the booths. Feel free to get a bite.

Lunch is not included in the registration fee. Lunch options will be available at the venue on Thursday, Friday and Saturday (buffet, picnic bags, food trucks and cash bar). Tickets available previously online or onsite at the Lunch Points at the venue.

Grand SEVC Fiesta

Saturday, 9 November: 9.30pm - 2am
Café del Casino, María Luisa Park

Registration to the Scientific Programme does not include access to the Fiesta

Enjoy a party with live entertainment, tapas, drinks and music to dance the night away. It’s necessary to present the ticket within your badge to gain access.

How to get there: The nearest Metro station is Prado de San Sebastian. The taxi ride to the casino cafe is 15 min from FIBES (AVEPA-SEVC venue). There will be no coach service.

Lunch

During coffee breaks you will have beverages available at the coffee points, as well as pastries in the booths. Feel free to get a bite.

Lunch is not included in the registration fee. Lunch options will be available at the venue on Thursday, Friday and Saturday (buffet, picnic bags, food trucks and cash bar). Tickets available previously online or onsite at the Lunch Points at the venue.

Scientific programme

Current, practical, scientific information that can be applied immediately by practitioners

The SEVC Scientific Programme is aimed at all European veterinarians, particularly small animal and companion animal practitioners.

The SEVC’s mission is to present the latest advances in animal care to the veterinary community in a professional, but fun, environment, by offering more than 200 lectures by more than 100 worldwide experts.

The official languages at the SEVC are English and Spanish. Simultaneous translation will be provided.

### Thursday, 7 November, 9am - 2pm

#### Room: Barcelona

**FRIDAY, 8 NOVEMBER 2019**

**FRIDAY**

**11.00-11.55:** coffee break in the exhibition hall

**12.00-12.55**

- What's the latest on canine megaesophagus? A case-based approach
  - Dr. Stan Marks

- How to treat neuropathic pain and itch in cats
  - Dr. Clare Rusbridge

- Veterinary care for unusual species such as wallabies and porcupines
  - Dr. Rafa Guerra

**13.00-13.55**

- Common cranial nerve deficits: figuring out the floppy face
  - Dr. Edward Ives

- Feline aspergillosis: are antifungals effective?
  - Dr. Vanessa Barrs

- Approach to clinical cases, where the answer was a biopsy of a coelomic organ in reptiles
  - Dr. Paolo Seller

- Histolytic skin diseases in dogs and cats
  - Dr. Stephen D. White

**14.00-15.25:** lunch break

**15.30-16.25**

- How to manage the cat dying of acute pancreatitis
  - Dr. Luis Bosch Luzano

- Raw pet foods – what is the evidence
  - Dr. Jennifer Larsen

- Thoracoscopic pericardial surgery
  - Dr. J. Brad Case

- Thoracoscopic surgery for chylothorax
  - Dr. J. Brad Case

- Sterile nodular diseases in dogs and cats. Part I
  - Stephen D. White

**16.30-17.25:** coffee break in the exhibition hall

**17.30-18.25**

- The vomiting dog, top tips on diagnosis and management
  - Dr. Luis Feo

- Feline gammaherpesvirus and hepadnavirus: cause for concern?
  - Dr. Vanessa Barrs

- Homemde diets – what clinicians need to know
  - Dr. Jennifer Larsen

- Elbow, knee and shoulder arthrodesis
  - Dr. Carlos Macias

- Sterile nodular diseases in dogs and cats. Part II
  - Stephen D. White

- Feline paraneoplastic disorders
  - Dr. Katarina Varjonen

**18.30-19.00**

- Urinary bladder and the management of urethral obstructions in cats
  - Dr. Luis Feo

- Advances in the management of urethral obstruction
  - Dr. Esteban Pujol

- Arthrodesis of the tarsal joints - tips and tricks for success
  - Dr. Rico Vannini

- Sterile nodular diseases in dogs and cats. Part III
  - Stephen D. White

- Feline paraneoplastic disorders
  - Dr. Katarina Varjonen

**19.00-19.25**

- Basic principles in wound management
  - Dr. Felipe de Vicente

- Urethral stenosis following perineal urethrostomy in cats
  - Dr. Dr. Matthieu Cariou

- Apocrine gland anal sac adenocarcinomas in dogs
  - Dr. Julius M. Liptak

**10.00-11.00:** coffee break in the exhibition hall

**11.00-11.55**

- Veterinary care for unusual species such as wallabies and porcupines
  - Dr. Rafa Guerra

- Approach to canine pododermatitis
  - Dr. Katarina Varjonen

- Cholecystectomy with laparoscopy
  - Dr. J. Brad Case

- Leveraging the latest digital marketing opportunities
  - Dr. Bill Schroeder

**13.00-14.25:** lunch break

**14.30-15.25**

- Thoracoscopic pericardial surgery
  - Dr. J. Brad Case

- Feline otitis media
  - Dr. Laura Ordex

- Thoracoscopic surgery for chylothorax
  - Dr. J. Brad Case

- Sterile nodular diseases in dogs and cats. Part I
  - Stephen D. White

- Feline paraneoplastic disorders
  - Dr. Katarina Varjonen

**16.30-17.25:** coffee break in the exhibition hall

**17.30-18.25**

- The vomiting dog, top tips on diagnosis and management
  - Dr. Luis Feo

- Feline gammaherpesvirus and hepadnavirus: cause for concern?
  - Dr. Vanessa Barrs

- How to manage the cat dying of acute pancreatitis
  - Dr. Luis Bosch Luzano

- Thoracoscopic pericardial surgery
  - Dr. J. Brad Case

- Sterile nodular diseases in dogs and cats. Part II
  - Stephen D. White

- Feline paraneoplastic disorders
  - Dr. Katarina Varjonen

**18.30-18.55**

- Basic principles in wound management
  - Dr. Felipe de Vicente

- Urethral stenosis following perineal urethrostomy in cats
  - Dr. Dr. Matthieu Cariou

- Apocrine gland anal sac adenocarcinomas in dogs
  - Dr. Julius M. Liptak
**SATURDAY**

**11.00-11.55:** coffee break in the exhibition hall

**12.00-12.55**
- Chiari-like malformations – how to deal with neuropathic itch and pain
  - Dr. Joaquim Henriques
- Rabbit GI disease: frequently overlooked perspectives
  - Dr. Don Harris
- Diagnosis and treatment of procoagulant states
  - Dr. Karen Humm

**13.00-13.45**
- Tetanus in dogs and cats
  - Dr. Natasha Obly
- Advances in exotic pet surgery
  - Dr. Minh Huynh
- The bleeding dog: diagnosis and treatment
  - Dr. Karen Humm

**14.00-15.25:** lunch break

**15.30-16.25**
- Metronomic therapy: when are we standing?
  - Dr. Joaquim Henriques
- Surgical or not? Orthopaedic and pathologic cases in avian patients
  - Dr. Minh Huynh
- Diagnosis and treatment of major electrolyte disorders in small animal critical care patients
  - Dr. Marc Raffe

**16.30-17.25**
- Update on canine mast cell tumours
  - Dr. Joaquim Henriques
- Optimise your smartphone for your exotic
  - Dr. Minh Huynh
- Acute coagulopathy of trauma in dogs and cats: What do we know?
  - Dr. Luis Bosch Lozano

**17.30-18.25:** coffee break in the exhibition hall

**18.30-18.55**
- Canine lymphoma
  - Dr. Joaquim Henriques
- Respiratory distress in birds
  - Dr. Minh Huynh
- Case challenges
  - Marc Raffe, Karen Humm, Nuno Felix

**19.00-19.25**
- Hallmarks of cancer: a brief insight into our enemy!
  - Dr. Joaquim Henriques
- Anaesthetising large carnivores
  - Dr. Rafa Guerra

**10.00-10.55:** coffee break in the exhibition hall

**11.00-11.55**
- Biomechanical considerations on fractures and implants
  - Dr. Carlos Macias
- Ventricular arrhythmias: when to worry
  - Dr. Domingo Casamian-Sorrosal
- Medial shoulder instability
  - Dr. Gonzalo Belmonte
- Pericardial disease in 2019: what shall I do after pericardiotomies?
  - Dr. Domingo Casamian-Sorrosal

**12.00-12.55**
- Building unforgtable moments in your clinic
  - Dr. Mikel A. Diaz Sanchez
- Corporate veterinary practice, a European perspective
  - Rafael Laguens

**13.00-13.45**
- Managing complicated wounds
  - Dr. Felipe de Vicente
- Diagnostic imaging of the head
  - Dr. Federico Vilaplana
- Tracking and managing your digital spend: A lesson in ROI
  - Dr. Bill Schroeder

**14.30-15.25**
- Diagnostic imaging of the forelimb and the hindlimb pathology. Part I
  - Dr. Eduardo Fraga Manteiga
- Video and your practice’s digital marketing plan
  - Dr. Bill Schroeder
- How to build a year long content calendar
  - Dr. Miguel A. Diaz Sanchez

**15.30-16.25**
- Partial and total vertebrectomy for vertebral tumours: technique and controversies
  - Dr. Julius M. Liptak
- Diagnostic imaging of the forelimb and the hindlimb pathology. Part II
  - Dr. Eduardo Fraga Manteiga
- How to manage. When the boss becomes aware that he gets in the way of his team
  - Dr. Miguel A. Diaz Sanchez

**16.30-17.25:** coffee break in the exhibition hall
KRUUSE provides products for all phases in the wound - for all sizes of animals

We have optimized our popular Wound Charts. Use them, if you want guidance about which products to use in any given situation.

Wound charts in A3-format can be obtained free of charge. Place the charts in a central place which will provide easy access for you and your staff at all times.

PLEASE COME AND CHECK IT OUT, AT THE KRUUSE STAND 259 AND GET A FREE COPY
The SEVC workshops give delegates a unique hands-on laboratory experience. Working with small groups (maximum 20 people), world-class instructors will teach new techniques using the latest equipment.

The workshops are presented in English, but instructors will provide assistance with other languages.

Delegates can register for the workshops only, without registering for the SEVC Scientific Programme.

Workshops

THURSDAY 7
HAEMATOLOGY
OPTICAL MICROSCOPY IN HAEMATOLOGY: KEY CONCEPTS FOR A SUCCESSFUL DIAGNOSIS
Time: 8.00 - 11.00

THURSDAY 7
SURGERY
GASTROINTESTINAL AND URINARY SUTURING TECHNIQUES
Time: 9.00-13.00

THURSDAY 7
ULTRASONOGRAPHY
CANINE ABDOMINAL ULTRASONOGRAPHY: HANDS-ON LAB!
Time: 9.30-13.30

THURSDAY 7
CYTOLOGY
OPTICAL MICROSCOPY IN CYTOLOGY: KEY CONCEPTS FOR A SUCCESSFUL DIAGNOSIS
Time: 11.30-14.30

THURSDAY 7
ORTHOPAEDICS
MUSCULOESKELETAL ULTRASONOGRAPHY FOR THE ORTHOPAEDIC SURGEON: PRACTICE LAB AND CASE REVIEW
Time: 15.00-17.00

FRIDAY 8
ULTRASONOGRAPHY
ULTRASOUND DIAGNOSIS OF ABDOMINAL PATHOLOGIES: BEGINNER LEVEL
Time: 9.00-11.00

FRIDAY 8
BEHAVIOUR
HELPING CLIENTS WITH PROBLEM PET BEHAVIOUR. BEYOND BEHAVIOURAL ADVICE
Time: 14.30-18.30

SATURDAY 9
RADIOLOGY
DIAGNOSING THORACIC DISEASES ON RADIOGRAPHS
Time: 10.00-12.00

Registered?
Be at the WORKSHOPS’ MEETING POINT, next to the Check In Area, 15 minutes prior to your workshop start time.

ASK AT THE SECRETARY’S OFFICE FOR AVAILABLE PLACES

The SEVC workshops and laboratories adhere strictly to the ethical oversight directions and approval under Spanish regulations in their use of live animals. The number of animals used is always minimal. Every effort is made to avoid situations and procedures that would cause anxiety and pain in the animals, and appropriate sedation and analgesia are used whenever necessary. No animal will be euthanised to meet the needs of any SEVC workshop.
SEE GI ISSUES IN A NEW LIGHT WITH MICROBIOME SCIENCE

Breakthrough nutrition with ActivBiome+ Technology to activate gut microbiome
